

Suggestion for outline – please add and/or modify for your group

Cover page and Table of Contents

A- About your project

- 1- reasons of building this software
- 2- about phase 1
- 3- about phase 2

B- About the Final Prototype

- 1- UI for the three primary "User Tasks"
- 2- 3 most important UI Qualities of the system
- 3- 3 most important UX of the system
- 4- Technology decisions made for the product
 - i-Architecture
 - ii-Data Persistence (SQL, NoSQL, flat files...)
 - iii-Framework & Language
- 5- Is system release-able?
(please supply reason to support answer(s))
- 6- Demo Video link

C- Evaluation of final prototype

- 1-Planning
 - a-Forms, b- scripts, c-sampling approach
- 2- Interview
 - a-about participants
 - b-about data collected
 - c-analysis - (graphs, counts, ratios, and other quantitative metrics)
 - d-conclusion with respect to UI&UX quality
- 3- Questionnaire
 - a-about participants
 - b-about data collected
 - c-analysis - (graphs, counts, ratios, and other quantitative metrics)
 - d-conclusion with respect to UI&UX quality
- 4- Observation
 - a-about participants
 - b-about data collected
 - c-analysis - (graphs, counts, ratios, and other quantitative metrics)
 - d-conclusion with respect to UI&UX quality

5- Integrated Conclusion

List of recommendations for next version of the software

D- Retrospective Report

- Lesson learned by group
- Lesson learned by individual

E- Appendix

- Samples
- Any Process Metrics or Product Metrics
- Any useful info
